

Some of My Projects

Samuel Virsik

September 2023

Introduction

I have included three of my computer science / data analysis projects:

1. **FishFinder**
A coding project where I analyzed ocean depth data to find fishing spots
2. **Chess**
A fully functioning game of chess I coded
3. **Roulette**
A simulation of a specific strategy of playing roulette I coded: the Martingale System

1 FishFinder

Here is a contour map I made:
